## AUTOMOTIVE PRODUCT MANAGER

The Automotive industry is living a revolution. Electrification, autonomous driving, diverse mobility, connectivity are trends that are drastically changing the industry's rules. Among all decisive topics revolutionizing cars in the next future, Silicon Mobility is committed to supporting the rapid advent of electric and hybrid cars.

Silicon Mobility is a full-stack automotive technology player powering control solutions for a cleaner, safer and smarter mobility. The company semiconductor, tools and software solutions provide energy efficiency and pollutant emissions reduction while keeping passengers safe.

The Company is opening a new Automotive Product Manager position to head its software products management for the vehicle electrification and autonomous driving application. The position is based in its headquarters, in Sophia-Antipolis Technology Park, on the French Riviera.

If you want to join a dynamic and fast-paced environment, work with cross-functional teams to design, build and roll-out products; if you want to deliver products that impact the Automotive Ecosystem with technologies that remove the roadblock of Electrified Vehicles and help create the crucial nerve system of Autonomous cars; if you are a brilliant Product Manager, passionate about building new products and creating high value to customers and end users; if you have previous product management experience and have successfully driven breakthrough technologies for the automotive market; If you have been intimately involved from initial product vision to product adoption by customers; If you are comfortable working with business and technical teams, simplifying complex subjects and helping experts understand the business value of their work : WE ARE WAITING FOR YOUR APPLICATION!
